BIDS EVALUATION PROCEDURE

Technical Bid and Financial Bid

Punjabi University's purchase committee will evaluate the technical and financial bids. Decision of the committee would be final and binding on all the bidders.

Evaluation of Technical bid

- (i) Before submission of the technical bid, bidders are expected to meet the qualifying criteria (Requirements) as mentioned in the tender document. Bidders failing to meet these criteria or not submitting requisite supporting documents/documentary evidence for supporting the eligibility criteria are liable to be rejected summarily.
- (ii) The technical bids must be complete in all respect and should cover the entire scope as stipulated in the tender document.
- (iii) The bid should cover the entire scope of technical specifications.
- (iv) Floor plans for the processing line to be laid out by vendor.
- (v) Information as provided in Annexure C.

In case of ties after financial opening, L1 will be finalized as per the following:

The bid providing the highest period of warranty, will be finalized.

Director,
Entrepreneurship, Innovation
and Career Hub
Punjabi University,
Patiala.

CERTIFICATE OF WARRANTY

- i) I/We certify that the warranty shall be for a period of _____ years comprehensive onsite warranty starting from the date of satisfactory installation, commissioning and handling of the equipment and of the works conducted therewith covered under the supply order in working order. During the warranty period, I/we shall provide free "after sale service" and the replacement of any part(s) of the equipment or rectification of defects of work of the equipment will be free of cost. The replacement of the parts shall be arranged by us, at our own cost and responsibility. We undertake that the above warranty shall begin only from the date of satisfactory and faultless functioning of the equipment for 60 days at Punjabi University Patiala premises. The benefit of change in dates of the warranty period shall be in the interest of Punjabi University, Patiala.
- ii) During the warranty period, we shall provide at least one preventive annual maintenance visit.
- iii) Uptime Guarantee: During the warranty period, we will be responsible to maintain the equipment in good working conditions for a period 328 days (i.e. 90% uptime) in a block of 365 days.
 - (a) All complaints will be attended by us within 2 weeks of receipt of the complaint in our office.
 - (b) In case there is delay of more than 2 weeks in attending to a complaint from our side then you can count the number of days in excess of the permissible response time in the downtime. The above said response time of 2 weeks for attending to a complaint by us will not be counted in the downtime.
 - (c) Penalty: We shall pay a penalty equivalent to 0.1% of the FOB value of the equipment for every week or part thereof delay in rectifying the defect.

Note: The right to accept the reason (s) for delay and consider reduction or waive off the penalty for the same shall be at the sole discretion of Registrar, Punjabi University Patiala.

- iv) We certify that the equipment being quoted is the latest model and that spares for the equipment will be available for a period of at least 10 years and we also guarantee that we will keep the organization informed of any update of the equipment over a period of 10 years.
- v) We guarantee that in case we fail to carry out the maintenance within the stipulated period, Punjabi University Patiala reserves the right to get the maintenance work carried out at our risk, cost and responsibility after informing us. All the expenses including excess payment for repairs/maintenance shall be adjusted against the Performance Bank Guarantee. In case the expenses exceed the amount of Performance Bank Guarantee, the same shall be recoverable from us with/without interest in accordance with the circumstances.
- vi) We shall try to repair the equipment at Punjabi University Patiala premises itself. However, the equipment will be taken to our site on our own expenses in case it is not possible to repair the same at Punjabi University Patiala. We shall take the entire responsibility for the safe custody and transportation of the equipment taken out for repairs till the equipment is rehabilitated to the Punjabi University Patiala after repair Any loss of equipment or its accessories under its charge on account of theft, fire or any other reasons shall be at our sole risk and responsibility which will be compensated to Punjabi University Patiala for such losses at the FOB/CIF value for the damaged/lost equipment/part, including accessories.
- vii) We undertake to perform calibration after every major repair/breakdown/taking the equipment for repair out of Punjabi University Patiala premises.
- viii) In case of extended warrantee, we undertake to carry out annual calibration of the equipment.
- ix) We guarantee that we will supply spare parts if and when required on agreed basis for an agreed price. The agreed basis could be an agreed discount on the published catalogue price.
- x) We guarantee to the effect that before going out of production of spare parts, we will give adequate advance notice to you so that you may undertake to procure the balance of the life time requirements of spare parts.
- xi) We guarantee the entire unit against defects of manufacture, workmanship and poor quality of components.

TECHNICAL SPECIFICATIONS FOR
A MULTIUTILITY FOOD PROCESSING LINE ON A TURNKEY BASIS

Technical Specifications for Supply of a multiutility Food Processing line on a turnkey basis with accessories.

Scope: The food processing line will be used by start-ups and entrepreneurs alike, for processing fruit and vegetable raw material into a finished and aseptically packaged food product (pastes, purees, pulps, jams and jellies).

Technical specifications: A semi- automatic/ automatic line with a capacity of 50 kg/h, with aseptic filling. The machines comprising the line need to have the following specifications:

S.No	Equipment	Specifications	Quantity
1.	Washer	Continuous system made up of 304 AISI SS, with 200lt usable well capacity	2
2.	Skin Peeling Machine	Made up of 304 SS with continuous operation in line and have separate systems for Garlic, Ginger, other vegetables and fruits	1
3.	Pulverizer	Made up of SS 304, Specific for garlic ginger with other operational facilities, inline continuous system	1
4.	Blancher	Constructed in stainless steel, 18/8 AISI 304. Automatic lifting of the belt for cleaning of the machine. Dashboard low voltage touch screen to control the various parameters of the machine, and to perform maneuvers for cleaning. Supports the implementation of work programs. Two stainless steel conveyor belts driven by two geared variable speed engines.	1
5.	Pulper	S.S. 304 feed and discharge hopper. S.S. 304 collection tray. S.S. 304 covers. Appropriate drive system consisting of motor, pulleys, V belts, bearings etc. Suitable for extracting the pulp and separating the seeds and skin from fruits and vegetables like mango, tomato, guava, papaya, tamarind etc. Mounted on a rigid platform. Coarse pulping screen diameter: 3mm; fine pulping screen diameter: 0.5mm and 0.8mm	1

6.	Collection Tank	Made up of SS304	1
7.	Steam Jacketed Kettle	150 ltr with stirrer, Inside vessel part material of equipment SS 316 with 3mm sheet, outside jacket part of equipment: SS304 with 5 mm sheet, Insulation: SS316 cladding, 1.6 mm thickness, Structure: SS304, Stirrer Type: Anchor type with scrapper, Heating: Electrical/Induction heating, Heater Capacity: 6 kW, Temperature Control: Inside vessel through non -contact type sensor jacket through direct -in contact type sensor. Fitted with safety valves. Material discharge: Tilting vessel through bottom with SS valve, drive Unit: variable speed branded Motor (1 HP) with gear box & Variable Frequency Drive, ground clearance height: approx. 250 mm, Discharge clearance height: approx. 350mm, overall height: approx. 1500 mm, heavy duty leg supports	2
8.	Mixing/Blending tank	Made up of SS 304 with a stirrer of 150 rpm max.	
9.	Juice Extractor	Suitable for extraction of juices from a variety of fruits like pineapple, orange, apple, ginger, amla etc. Unique spiral design of the machine which ensures high yield juice recovery Continuous feeding/extraction of product to ensure minimal labor.	1
10.	Homogenizer	2 stage, with pressure gauge, pulley driven, made up of SS 304, upto 200 bar	
11.	RO plant	Made up of SS and ABS plastic, 50 ltr per hr	1
12.	Finished product storage tanks	Made up of SS 304, with stirrer	10
13.	Pasteurizer/Sterilizer HTST UHT Mini Pilot system with electric boiler	With electrical control panel, capable of aseptic operation. Compact, mobile, easy to install. Continuous and batch operation. Process temperatures 30-92-60°C, up to 150°C. Two stage cooling option, with cooling tower water. Fully automated. Preheating by hot water (indirect).	1

		<p>Heating by steam (indirect).</p> <p>Plate and tubular heat exchanger options, with SS 316 pipes.</p> <p>Controlled product preheat and heating temperatures.</p> <p>Simple and rapid switch over between heat exchangers.</p> <p>Automatic product divert with temperature on tubular heat exchanger.</p> <p>Built-in clean in place (CIP) and sterilization in place (SIP) facilities.</p> <p>Integral USB data logging.</p> <p>Touch screen control for ease of use.</p> <p>In-line bottling machine for aseptic packaging</p>	
14.	Automatic filling line	Pouch capacity of 10 – 100 gm; 500 pouches per hr	1
15.	Cold storage	200 sq ft	1
16.	Product transfer pumps and piping	Hygienic version motor driven pumps with contact parts made of SS 316/304, valves and fittings included-SS 304, food grade rubber pipe	1 lot
17.	Electrical panel	For distribution supply to machinery: Mild steel with glass windows, LED indicators, fan, tube lights, etc. Distribution panel with circuit breaker arrangement to all machines	1
18.	Electrical cabling	For supply from panel to equipments	1 lot
14.	Installation and Training	Installation of entire set-up to be undertaken, training should be provided by vendor on operation of the processing line, at Punjabi University, Patiala	
15.	Spares	The vendor should also confirm that the spares for the entire instrument will be available for a period of at least seven years after the installation of the instrument.	
16.	Manual	One set of operating manual and service manual (in English) should be provided with the instrument. The manual should be presented in both, hard and soft copy.	
17.	Generator	50kVA, silent	1
